mail@yusuftezcan.com

SUMMARY

I am a professional software engineer, can design, code and document enterprise software for desktop, web, mobile and embedded platforms. I am fluent in Java and C# and I have considerable experience with various programming languages and software frameworks.

I deliver actual working software on time and on budget with extremely high quality while keeping the source code well-documented, fault-tolerant, scalable, backward-compatible and performant.

SPECIALTIES

Software Engineering, Software Architecture, Enterprise Software Development, Machine Learning, Algorithmic Trading, User Experience, Software Risk Management, Product Management, Agile Software Development, Prototyping

TECHNICAL SKILLS

Programming Languages and Technologies

Java, C#, ASP.NET, Hibernate, LINQ, SQL, Javascript/AJAX, TypeScript, C, MQL, SOAP, RESTful Web Services, Windows Services, Linux Daemons, CSS3, SCSS, JSON, XML, HTML5, Mono, PHP, JMS, MQTT, Lua

Frameworks, Libraries and Tools

Vaadin, Spring MVC, Node.JS, ASP.NET MVC, Entity Framework, Hibernate, PrimeFaces, WCF, WPF, QuickFIX/J, Bloomberg API, JQuery, AngularJS, JMS, TIBCO, ActiveMQ, Velocity, CXF, Axis, Memcached, Ehcache, Android SDK

Databases

Oracle, MS SQL, PostgreSQL, Sybase, MySQL, HyperSQL, SQLite, FirebirdSQL

Server Software

IBM WebSphere, Apache Tomcat, Apache2, IIS7, Glassfish, JBOSS, Jetty

Operating Systems

Ubuntu Server, CentOS, Windows Server, Open Suse, Android OS, iOS, Raspbian

Version Control

CVS, Subversion, Git

Wireframing and Graphics Editing

Corel Paintshop Pro, GIMP, Balsamiq

WORK EXPERIENCE

Contractor

January 2017 – Present, Mersin

- ✓ Worked with mid-sized businesses as well as with startups from the United Kingdom and the United States.

Software Product Development Team Lead

Globit Global Information Technologies Inc.
March 2013 – January 2017, TUBITAK MAM Gebze

- ✓ Architectural design, prototyping and development of enterprise software applications.
- ✓ Mentoring and leading project development teams
- ✓ Helping with estimation and budgeting, planning and roadmaps, pre-sales and technical proposals,
- ✓ Scale the organization to support multiple fast-paced product launches
- ✓ Hiring and annual performance reviews.

Lead Software Engineer

Sentrilyon Information Technologies Ltd.
March 2011 – February 2013, Istanbul

Software Engineer

Turatel Mobile Media Communications Ltd.
November 2008 – June 2010, Antalya

Intern Engineer

BOTAŞ Petroleum Pipeline Corporation
August 2007 – October 2007, Hatay

EDUCATION

Bachelor of Science in

Computer Engineering (English)

Cyprus International University (2003-2008)
CGPA: 3.41 / 4.00

Honors and Awards

Outstanding Success Scholarship (100%)

LANGUAGES

English, Full professional proficiency
Turkish, Native

PERSONAL DETAILS

Birthday: 09.05.1984

Military Status: Completed (2011)

Recommendations

Please visit my [LinkedIn Profile](#) for my recommendations or view them copied below.

Ozan Vakar**CEO at Globit**

Yusuf is one of the most talented software engineers I worked with. He always delivered high quality software even earlier than the dead-lines. His ambition to learn makes him a good researcher enabling developing innovative solutions to users needs. Yusuf is also very organised person which makes him an excellent team leader. I strongly recommend him for organisations looking for talent.

Semih Emiral**COO at Globit**

Yusuf is a very good senior software developer and always try to deliver projects on time/quality/cost by combining his technical skills and professional qualifications in software development methodologies/documentation, teamwork, communication etc.

Yusuf's strong technical skill-set and background, coupled with the finance domain knowledge and experience that he gained in Globit, will help him to achieve his long-term goal of becoming a chief architect.

While working with Yusuf, you can see his ability to perform at complex project environment immediately by using following skills;

- Strong technical skills
- Willingness to learn
- Problem-solving skills
- Passion for the work
- People skills

Dogan Erdogant**Senior Architect at Invstr**

It's rare that you come across standout talent like Yusuf. I hired Yusuf as a software engineer in 2008, then had the pleasure of working with him for two years at Turatel. Yusuf's ability to juggle multiple projects was unlike any I've seen before and made a dramatic difference in the productivity of team. His IT knowledge, quick, simple and elegant solutions against to problems that we faced always impressed me. I never guided or manipulated him, just gave guidance to target, and boom! ...like a Tomahawk. As a team member or a leader or a manager, Yusuf earns my highest recommendation.

M. Aykut SAY**Expert at Garanti Teknoloji**

Yusuf is most likely one of the best professional to work with I've ever met. Proactive, ambitious and also committed perfectionist. Yusuf assumed a leadership role in Globit, inspiring and motivating his colleagues. Energetic, detail oriented and broad-minded team leader&player. I would recommend him with any project that requires the very best in management and engineering execution.

Ufuk Aslan**Professional Service Technical Expert at Globit**

Few people have the opportunity to work with Yusuf. I had the pleasure of meeting with him. I was particularly impressed by his ability to handle even the toughest clients and obstacles. No matter how tense a meeting, Yusuf made sure everyone left with full satisfaction in friendly manner. As a team member or a leader, Yusuf earns my highest recommendation.

Volkan Ozdemir**Team Leader at Globit**

Yusuf is a motivated, forward thinking and intelligent technical expert with deep knowledge of product management and software architecture. He has a very strong work ethic. His performance at Globit was golden. Through the years, we worked on various projects and I was impressed by his manner of doing a great job.

Selected Projects

Double Hedge Algorithmic Trading System

2018

An algorithmic trading system which uses double hedging strategy based on Black-Scholes pricing model and martingale probability theory.

Platforms

MetaTrader4

RESTful Web
Services

Technologies

MQL (MetaQuotes), Java, Hibernate, Apache CXF, PostgreSQL, Tomcat, Log4J

LAMS allows loan brokers to compare loans from multiple providers and apply for loans by requesting a soft credit search. It is integrated with major loan providers from the United Kingdom through SOAP and REST.

The screenshot shows a web application interface for a 'NEW LOAN APPLICATION'. On the left is a sidebar menu with categories: Dashboard (Summary), Loan Application (Loan Application List, Application Form, Bulk Upload), Reports (User Activity Report, Loan Provider Report, Client Report), Administration (User Management, Loan Provider Settings), and About (Version Information). The main content area is titled 'NEW LOAN APPLICATION' and features a user profile 'Michael' in the top right. Below the title are five provider tabs: FLEXY, H&T, OAKBROOK, BAMBOO, and EVERYDAY, each with 'ON' and 'OFF' toggle buttons. The form is divided into three sections: 'LOAN DETAILS' with fields for Loan Amount (£1000), Loan Duration (12), Number of Payments (12), and Loan Reason (Consolidation); 'BARROWER DETAILS' with fields for Title (Mr), Name, and Middle Name; and 'EMPLOYMENT INFORMATION' with fields for Primary Income (Full-Time), Employer Name, Work Phone, Role, Pay Frequency (Monthly), Paid into Bank (Yes), Payment Method (One Account), and Industry (Engineering).
